

New Member Renewal

Date: _____

The New York State Association of Health Care Providers, Inc. (HCP) is a trade association representing home and community-based care providers across New York State through advocacy, information and education.

HRO members are non-licensed, non-certified, non-Hospice organizations that deliver or arrange for health-related or other services in the home or community. These organizations often have interests similar to home care providers and they can take advantage of the advocacy efforts, information and benefits of their membership in HCP.

HCP 2021-22 membership is for one full year, from November 1, 2021 – October 31, 2022.

HRO members must be members of HCP at the State level in order to be eligible for local HCP Chapter membership.

Please select your dues category based on your organization's total revenues from your most recent fiscal year generated from home care programs, companion, consumer directed, staffing and any other home and community-based-related services provided in New York State.

- Organizations with related home care corporations, subsidiaries and common ownership and/or management agreements/arrangements must include revenues from all entities in their dues calculation. The total dues calculation also includes revenues from other entities under a management agreement regardless of which entity is applying for membership.
- Organizations affiliated with vendor/services companies that are HCP Associate/Allied members must join as a Provider or HRO member based on their organization's revenues as indicated above and may not receive HCP member benefits through their affiliated organization's Associate/Allied membership.
- Organizations that are independently incorporated but part of a hospital and/or medical group should calculate their dues category based solely on their independent corporation.

To ensure that HCP's dues are fair and equitable, with all members paying dues in the appropriate dues category, and to ensure that HCP is operating in accordance with generally accepted, standard business practices, members are asked to voluntarily submit with their contract a financial statement(s) from their most recent fiscal year OR a letter from their accountant certifying that the agency's revenues fall into the selected Provider dues category. All information will be kept strictly confidential and HCP will not disclose this information for any purpose outside of the Association.
