

Home Care Recruitment and Retention Survey Now Open

The *HCP ADVOCATE* 10.7.2025

The Center for Health Workforce Studies (the Center) at the University at Albany is conducting its annual **Home Care Recruitment and Retention Survey**. HCP is partnering with the Center to encourage participation from **Licensed Home Care Services Agencies (LHCSAs)** across New York State.

This year's survey includes updated questions about staffing and workforce composition to help support data reporting requirements under the **1115 Waiver**. Your agency's participation will help ensure that the home care sector is accurately represented in this important statewide analysis.

[Please access the survey at your earliest convenience.](#)

The Center plans to conduct follow-up surveys every six months.

Data collected will be aggregated and displayed on an interactive dashboard that will be updated regularly and made publicly available. This resource will allow health care providers and their associations to track real-time recruitment and retention trends across the sector.

For questions or additional information, please contact [Robert Martiniano, DrPH](#), at the **Center for Health Workforce Studies**, 518-442-2503.
